

timer::start

```
graph LR; A[timer::start] --> B[timer::getTime]
```

A diagram showing a call from the `timer::start` function to the `timer::getTime` function. The `timer::start` node is a gray rectangle on the left, and the `timer::getTime` node is a white rectangle on the right. A dark blue arrow points from the right side of the `timer::start` node to the left side of the `timer::getTime` node.

timer::getTime
