

graphsat::InstanceFactory
::createSimpleCounterPAction

```
graph LR; A["graphsat::InstanceFactory  
::createSimpleCounterPAction"] --> B["graphsat::ValueData  
::addValue"]
```

A diagram showing a call from a function in the graphsat package to a function in the ValueData class. The call is represented by a blue arrow pointing from the left box to the right box.

graphsat::ValueData
::addValue
